

## Anti Vibration Rubber Feet

These Anti Vibration Feet are a practical and versatile support solution for pipe work and cable trays. They can also be used for smaller outdoor condensing units or air source heat pump installations. The feet have a 41mm x 21mm 'bonded' in channel, which is recessed into the top face allowing you to use standard channel fixings to secure your services to the feet. Our range are made from Recycled SBR rubber, making them eco friendly and UV stable. They also have the added advantage of vibration and noise absorption which makes them the perfect product for roof or ground level installation.

Part No	Model	Length (mm)	Width (mm)	Height (mm)	Max Loading Per Foot (kg)
AVFR6150	600 High Block	600	130	150	450

### MATERIAL SPECIFICATION

SBR-Recycled Rubber. Bound using a ratio of high quality moisture curing Polyurethane Pre-Polymer.  
BS7188:1989+A2;2009 and BS EN1176-7:2008

### METAL PROFILE

Aluminium strut 41mm x 21mm profile compatible with strut fixings.

### WORKING CONDITIONS

Suitable for internal or external applications in temperatures between -40°C to +80°C. BSEN60068-2-14
